MEMORANDUM FOR: Director of Economic Research
FROM: Director of Central Intelligence
SUBJECT: Resources for the Future Study

1. Last Sunday's Washington Post had a story about a new report by Resources for the Future and what it will take to solve our energy problems. The study is entitled "Energy in America's Future: The Choices Before Us."

2. Because I have such a high regard for Charles Hitch, the President of Resources for the Future, I would like to take a glance at this study. Could you have someone obtain it and take a quick look at it to see if it is worth reviewing.
